

Parents! Talk with Your Student(s) About the Dangers of E-Cigarettes & Vaping!!

There is increasing use of these products by US middle and high school youth.

Vape Devices: Tear Drop & Juul

Vape Device: Juul

Research Tells Us:

- E-Cigarettes and Vaping are tied to later teen cigarette smoking and marijuana use. - *nida.gov, Pediatrics, 2018*
- Most of these products that claim to be “nicotine-free” are not and can contain dangerous chemicals. - *drugabuse.gov*
- Use of these products can be **ADDICTIVE** and can harm the developing teen brain. - *US Surgeon General, 2018*

Share Information about the Dangers of Vaping and E-Cigarettes Use with Your Students(s)! It's never too early to talk.
